

Ignite by Hatch™

Playful Learning Meets Actionable Data

Ignite by Hatch™ is a dynamic and independent digital learning platform designed to captivate and engage early learners. Through its interactive and fun experiences, Ignite sparks a love for learning while seamlessly providing critical academic and child development data to teachers and administrators through Hatch's Insights dashboard.

Aligned to standards and backed by research, Ignite promotes growth and development across essential areas like math, literacy, language, and 21st century skills (skills that help children "prepare to learn"). Embrace Ignite by Hatch™ and watch your early learners thrive as they embark on an exciting journey of joyful discovery and personalized growth.

**Ignite Purposeful Practice Today
with Ignite by Hatch™**

The Benefits of Ignite by Hatch:

Playful Learning

In as little as 30 minutes of independent, purposeful practice per week, children make meaningful progress towards school readiness goals, with data available to teachers instantly.

Actionable Data

Automated, real-time data is collected from student play to give teachers evidence of school and grade-level readiness and child development.

Valuable Time Saved

Teachers celebrate the amount of time saved by faster access to data and reports through the Hatch Insights teacher and administrator dashboard.

Accelerate Whole Child Development

Ignite by Hatch™ is a digital learning tool for early learners that accelerates school and grade-level readiness across seven domains of learning, emphasizing mathematics, literacy, and child development skills. Aligned with curricular standards and vetted through third-party research, Ignite experiences allow educators visibility into standards-based learning gains for children.

"Ignite by Hatch™ is a wonderful learning tool! The children get their own personal experience at their own pace. As they master skills, Ignite moves them on, but if they're not able to, Ignite offers guided practice to provide more practice until mastery. I can go back to my dashboard a week later and see that child has mastered that skill and moved up a level!"

Janie Smith, M.Ed.

Head Start Education Coordinator
Caddo Community Action Agency

Ignite by Hatch Provides:

Personalized Experiences

Scaffolded experiences are incredibly engaging, with customized avatars and lovable characters leading children on personalized learning journeys!

Device Flexibility

Ignite by Hatch™ can be easily accessed on school-provided devices or through a variety of device options available from Hatch, ensuring flexibility and convenience for seamless integration into the classroom.

Data-Informed Instruction

Children engage in personalized learning experiences, and data is captured and provided in the teacher and admin dashboard, empowering teachers to inform instruction, assessments, and more!
